PROFESSIONAL SUMMARY

Computer Science graduate with practical experience developing web applications through software development training and hands-on projects. Completed frontend development training using JavaScript, React.js, and Next.js, with foundational backend experience involving Node.js, Express.js, and MongoDB. Experienced in collaborative software projects, application workflows, API integration, and project coordination. My goal is to grow into an internationally competitive software developer while contributing to meaningful projects and creating impactful digital experiences.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Next.js, Tailwind CSS, responsive web design

Backend: Node.js, Express.js, REST API fundamentals and integration

Database: MongoDB, MongoDB Atlas, CRUD operations

Tools: Git, GitHub, Visual Studio Code, Postman

Additional: Local Storage, Session Storage, client-side state management, Search ngine optimization

EDUCATION

Bachelor of Science in Computer Science

Mekdela Amba University | CGPA: 3.56/4.00 | National Exit Examination Score: 75%

Graduation: March 2026

PROFESSIONAL TRAINING

IBT–QIYAS Advanced Digital Skills Training Program

IBT College Canada & EDI | Ethiopia | Six-month program(July 2026 - december 2026)

- Selected through an AI-based interview process for an intensive software development training program.
- Completed the frontend development phase, covering HTML, CSS, JavaScript, React.js, and Next.js.
- Built responsive and interactive web applications through practical assignments and collaborative projects.
- Applied component-based development, routing, client-side state management, and API integration concepts.
- Currently progressing through backend development training with Node.js, Express.js, and MongoDB.

PROJECT EXPERIENCE

Sheggar Wheels – Peer-to-Peer Car Rental Platform | October 2026

IBT–QIYAS training project | Next.js, React.js, JavaScript, Tailwind CSS, Local Storage, Recharts

- Contributed to a peer-to-peer car rental platform designed for the Addis Ababa market.
- Developed frontend interfaces for vehicle browsing, booking requests, and user dashboards.
- Worked on role-based experiences for renters, vehicle owners, and administrators.
- Implemented booking-management workflows, including reservation requests and owner approval.
- Used browser storage to manage application data and user sessions.

Addis Eats – Restaurant Ordering Platform | October 2026

Personal project | Next.js, React.js, JavaScript, Tailwind CSS, Local Storage

- Developed a restaurant ordering application with customer and administrator interfaces.
- Implemented menu browsing, search, category filtering, pagination, shopping cart, and checkout functionality.
- Built administrative features for menu management and order-status tracking.
- Worked with Next.js routing and API routes, client-side state management, and browser storage.

Rohobot Healthcare – Healthcare Job Matching Platform | october 2026 - present

Internship project | Team of five | Backend testing and API integration contribution

- Collaborated with a five-member team on a platform connecting healthcare professionals with employment opportunities.
- Contributed to backend testing and API integration
- Worked with teammates on requirements for matching professionals with relevant job opportunities.

Online Job Portal – University Final-Year Project | March 2026

MERN Stack (MongoDB, Express.js, React.js, Node.js) | Team of four | Team Leader

- Led a four-member team in developing an online job portal as a university final-year project.
- Coordinated project activities and organized team responsibilities.
- Collaborated on job application and recruitment-related functionality.
- Gained practical exposure to the MERN stack and MongoDB Atlas database configuration.

PROFESSIONAL SKILLS

- **Team Collaboration** – Contributed to 4- and 5-member teams on healthcare and recruitment platforms.
- **Communication** – Led a 4-person team, organizing responsibilities and coordinating activities.
- **Continuous Learning** – Extended university foundation with hands-on professional training.
- **Adaptability** – Delivered projects across car rental, food ordering, healthcare, and recruitment domains.
- **Time Management** – Balanced a six-month training program, internship, and four projects concurrently.
